Medical Advice:

- Your cholesterol is mildly elevated; reduce saturated fats & fried foods.
- High glucose levels; monitor for pre-diabetes and consult your physician.
- Obese: Work with a dietitian for a structured weight-loss plan.

Lifestyle Tips:

- Great job staying smoke-free!
- Limit alcohol: no more than 1 drink/day (women) or 2/day (men).
- Try 30 min brisk walking at least 5 days a week.
